

SpotnSend

Stay Aware. Stay Safe.

Team Cipher Nova

The Problem

Emergencies happen every day. But response is often too slow.

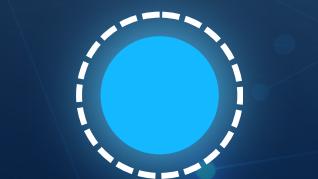

Our Solution

Realtime alerts. Realtime safety.

- One map where citizens and responders stay connected.
- Fast reports = faster response.

How It Works

Report

The app verifies the report and pushes it into the system instantly.

Alert

SpotnSend notifies nearby users and government responders in real time.”

Respond

Everyone nearby becomes aware, and responders arrive ready to take action.

Key Features

Report incidents & complaints

Live map with categories & filters

Save important locations

Real-time notifications

Verified accounts for trusted reports

Why It Matters

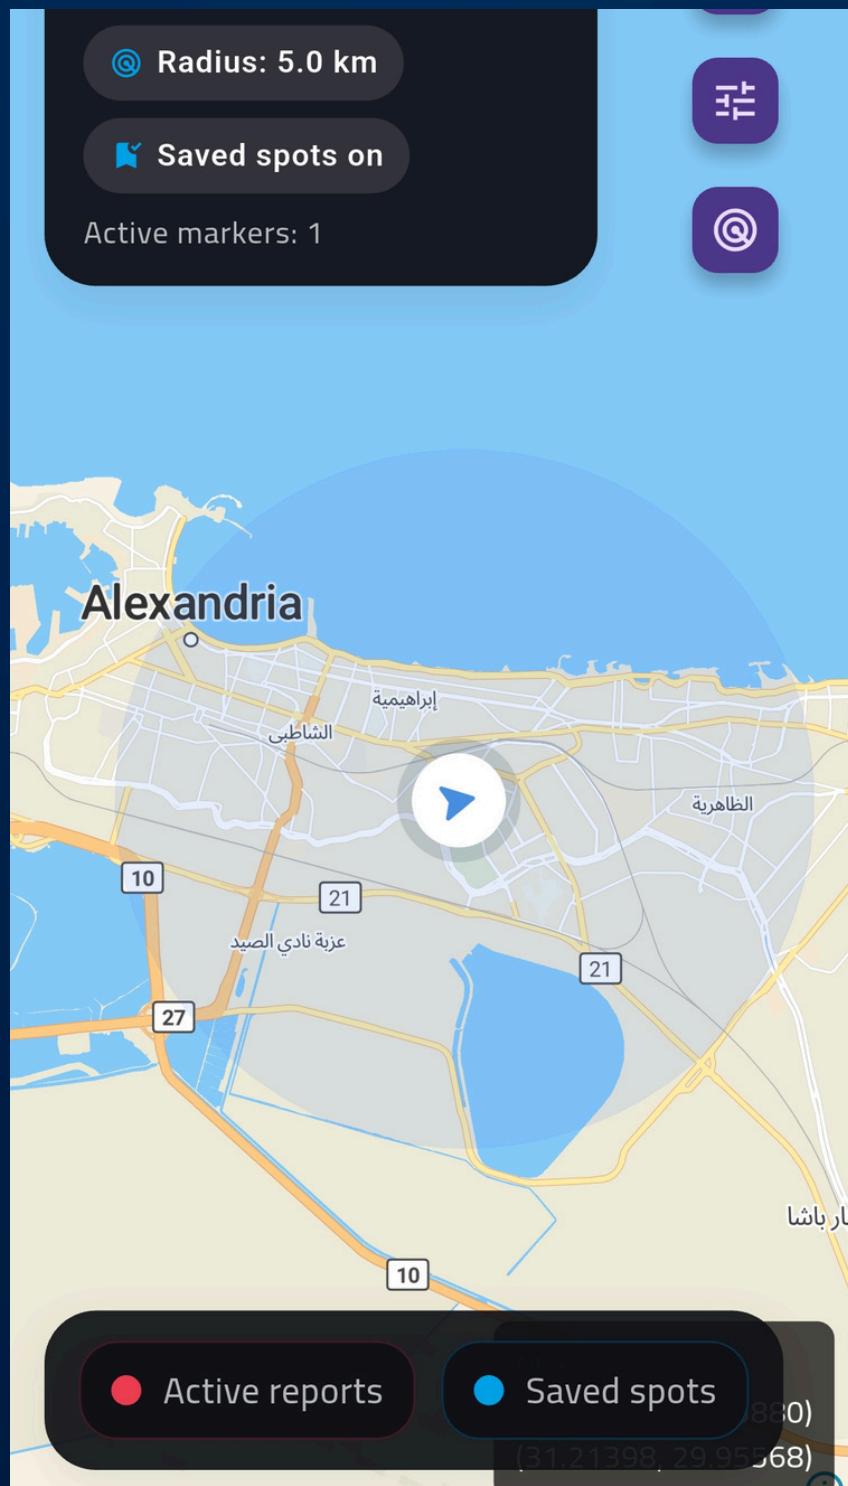

Citizens empowered to improve their city.

Safer communities, fewer accidents.

Fast response = lives saved.
e.g. Pothole on El Gaish Road reported early → accident prevented.

App Preview

Submit a report

Category: Roadway Hazard
Sub-category: Streetlight Outage

Description: The street lights are not working which is making driving so hard.

Who should be notified?

People Government Both

Notify which group?

Both Men Women

Choose who should receive alerts when notifying people.

Add photos or videos
Optional evidence helps responders assess severity.

Dashboard Preview

The incident detail view shows a single report entry.

ID	Subject	Area	Category	Status	Reported at	Action
C#86	Report #86		Electric	Open	Sep 30, 2025 09:28 PM	<button>Details</button>

The incidents list view shows a list of recent reports.

ID	Subject	Area	Severity	Status	Reported at	Action
R#90	Report #90		Medium	Open	Sep 30, 2025 10:09 PM	<button>Details</button>
R#89	Report #89		Medium	Open	Sep 30, 2025 10:08 PM	<button>Details</button>
R#87	Report #87		Medium	Open	Sep 30, 2025 09:55 PM	<button>Details</button>
R#85	Report #85		Medium	Open	Sep 30, 2025 09:17 PM	<button>Details</button>
R#84	Report #84		Medium	Open	Sep 30, 2025 07:31 PM	<button>Details</button>
R#83	Report #83		Medium	Open	Sep 30, 2025 06:26 AM	<button>Details</button>

The user management list view shows a list of users.

Name	ID	Role	Status	Active	Action
Sarah El-Sharawy	1	User	Pending	<input type="checkbox"/>	<button>Details</button>
Ahmed Chaker	2	User	Pending	<input type="checkbox"/>	<button>Details</button>
Mona Ali	3	User	Pending	<input type="checkbox"/>	<button>Details</button>
ahmedchaker@gmail.com	4	Admin	Pending	<input type="checkbox"/>	<button>Details</button>
karim	5	User	Pending	<input type="checkbox"/>	<button>Details</button>
younes	7	Admin	Pending	<input type="checkbox"/>	<button>Details</button>
ahmed	13	User	Pending	<input type="checkbox"/>	<button>Details</button>
Mohannad Mohie	16	User	Pending	<input type="checkbox"/>	<button>Details</button>

Challenges & Learnings

Verification system

solved with ID upload

UI/UX

tested for speed & clarity

Language support

added Arabic & English for the Admin Dashboard

Accessibility

built Dark & Light mode

AI Detection

Identify incidents automatically from photos/videos.

Safer Together

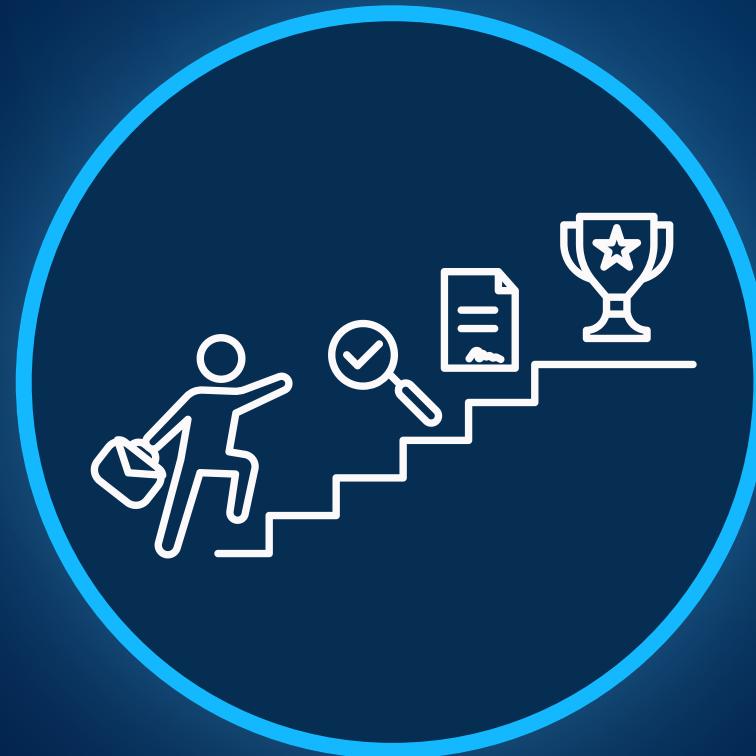

Citizens empowered to protect their own communities.

Beyond Reports

Turn complaints into real action with faster fixes.

Nationwide Trust

Build a reliable citizen-government safety network.
